Climate Linked Atlantic Sector Science

# Opportunities for Collaboration

Penny Holliday, NOC

CLASS Science Coordinator

Sea Mammal  
Research  
Unit

National  
Oceanography Centre  
NATURAL ENVIRONMENT RESEARCH COUNCIL

# Supporting graduate students and early career researchers

10-15 placements per year for training and experience  
Extended visits to CLASS Centres, research cruises  
Build on CLASS objectives and lead to a publication  
Open and fair competitive application process

Marine science summer school for ~20 ECRs in 2022  
Training and networking  
Guest lectures from HEI community

# Access to CLASS Resources

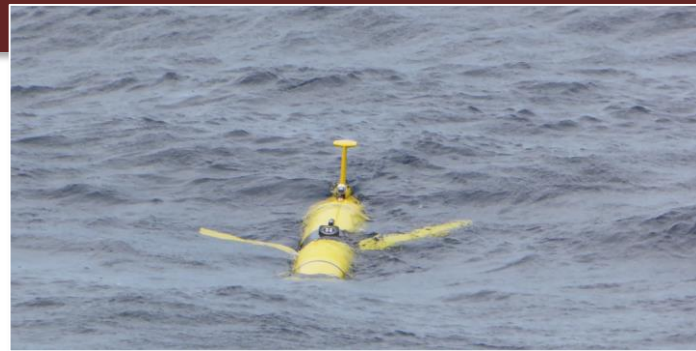

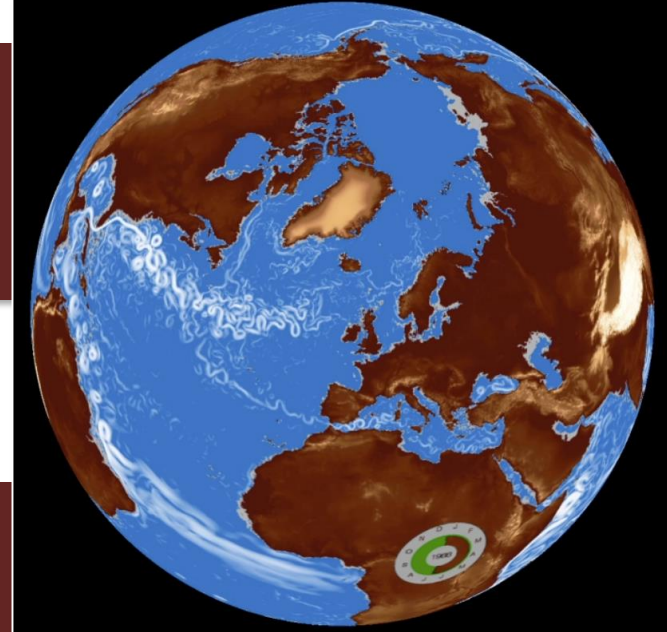

## Model Workshops

Making runs and code available to the community

## Catalogue of Facilities within the Centres

Making facilities accessible

Support for sample analysis and data interpretation

# Communication for maximising collaboration

Town hall meetings at UK Marine Science conferences

Seminars and webinars

Workshops with other major programmes

News, publications, annual report card
